Cremona FITTINGS & DUPLEX HANDLE SETS

CREMONE FITTING:

A fitting extending the full height of the meeting rail of folding windows and doors to fasten them at top and bottom. A central handle operates two sliding bolts, one upwards and one downwards.

DUPLEX HANDLE SET:

A device for opening and closing a window that is oversized. The device consists of a rod on which a handle and arm are mounted. The handle is attached to the lower section of the rod and can manipulate both ends of the fitting.
